Kaispeicher

Fully modernised with a direct view across the port – you can't get any more quintessentially Hamburg than this.

Today, you have the opportunity to inspire your guests in a former factory building where trade and warehousing flourished in the 1920s. Whether you're hosting a private event, press conference, wedding or product presentation, Kaispeicher D impresses guests all year round with its unique view of the River Elbe and the lights shimmering in the water at night.

Located right on the water with an area of 300 m² and featuring a 90 m² terrace, this venue offers everything your heart could desire: a stunning view, high-tech equipment and great transport connections.

The facilities include a PR system with compact loudspeakers, as well as a projector, projection screen and interior lighting with LED spotlights featuring colour-changing technology.
